

An **Emergency Supply Kit** is a collection of basic items that members of a household may need if they decide to shelter in place. They should be located in a safe, dry place and should only be used in an emergency. Household members should know where the kit is located and how to use each item. Check your kit at least **once every six months** to be sure that batteries are still working and canned food hasn't expired.

ITEM	QUANTITY	EXPIRATION DATE

My Emergency Supply Kit is located...

When was the last time I checked the expiration dates on canned foods?
